YOUR BEST RESTORATION FACE *Forward*

Marisa Faircloth, PA-C

YOUR BEST FACE Forward

BY CHELSEA PYNE

Within three years of opening, Restoration MedSpa has become one of the most trusted medical spas in the U.S. In fact, founder Marisa Faircloth, PA-C, is a Master Injector with Allergan and her practice is ranked in the top one percent nationally. During this meteoric rise to the top, Restoration MedSpa has never cut corners with their state-of-the-art quality treatments and services.

With two locations in Winston-Salem and Greensboro, more people are putting their best face forward with personalized services through Restoration MedSpa. Marisa attributes the success of her practice to taking a customized approach to the ever-changing field of non-invasive cosmetic procedures and enhancing each patient's attributes in a safe and natural way.

"It really stems from cultivating confidence," says Marisa. "When people feel good about themselves inside and out, they

become a version of their happiest selves. I think that the self-confidence that comes from feeling good about yourself spills over into everything. Looking and feeling your best creates a better outlook on life in general. Studies show that people who have better self-esteem have better relationships. Small changes in outward appearance that enhance self-confidence can even elevate mood and eliminate the need for antidepressants."

Marisa believes that a little self-improvement can go a long way. She and her expertly trained staff ensure that each person finds the right treatment options in an environment where they feel pampered and cared about.

"As we go through 2019, many of us will be focused on self-improvement," says Marisa. "Therefore, Restoration MedSpa offers a weight-loss program that is highly effective. In fact, the average client will lose 10-20 pounds in a three-week period.

We offer one-on-one counseling and assistance to help each patient reach his or her goals. We also offer CoolSculpting®, the leading body sculpting procedure that allows us to target 'trouble spots' and reduce body fat in the treated areas by 20-25 percent."

CoolSculpting is non-invasive and causes the fat to break down and be naturally eliminated over a three-to-four month period. It may sound too good to be true, but the results speak for themselves. Restoration MedSpa is the only Master Level CoolSculpting practice in the area, and every employee is CoolSculpting Certified to ensure patients experience optimum results.

Slimming down is just breaking the surface of what is available at Restoration MedSpa.

"As a Master Level Injector, I am more sought out for injectable services like Botox®, Juvederm®, Kybella® and Sculptra®," says Marisa. "My natural approach alleviates the fear of looking 'done' or obvious. My goal is to airbrush out minor flaws that aging creates rather than to draw attention to the treatment. Our current selection of fillers allows us to create a soft, natural improvement that creates a more youthful look without being perceptible."

Marisa is able to fill lines and wrinkles in less than 30 minutes. The products she chooses to use typically last from one to three years. She can also use fillers to volumize and lift cheeks, jawlines, and temples and fill out thin lips or even plump sagging hands.

Restoration MedSpa is a leading provider of Ultherapy® for tissue tightening. This revolutionary treatment uses ultrasound to transform the chest, neck, chin and brow. Ultherapy bypasses the surface of the skin to deliver ultrasound energy at the appropriate depth and temperature. This energy triggers a natural response under the skin, jumpstarting the regenerative process that produces fresh, new tissue tightening collagen.

Restoration MedSpa also offers state-of-the-art HydraFacial treatments, which are great for deep cleansing, exfoliation, and skin brightening. In addition, a variety of laser services for skin rejuvenation and Biotin® bioidentical hormone replacement therapy are available.

Another important part of the culture at Restoration MedSpa is its commitment to giving back to the Triad. Marisa is an active supporter of Guild of Family Services, Dress for Success, Cancer Services, and local symphonies. Restoration MedSpa has also donated free services to cancer survivors needing a boost of self-confidence. "Subtle improvements in appearance can

lead to a truly rejuvenated sense of wellbeing," Marisa says. "I work closely with each of my patients, and I feel a great sense of accomplishment when they feel better in general as a result of my treatments."

In an ever-changing industry with new products and procedures constantly surfacing, Restoration MedSpa stands above the rest with cutting-edge treatment options and products to provide the very best for its clients.

Client Robbie G. explains, "I have been going to Marisa for years and she and her staff have never let me down. As a nurse practitioner, I have an insider's view of a provider and the services they deliver. Marisa is on the top of the bar. This was my first visit since the renovation on her office and it is gorgeous. At Restoration MedSpa, you feel like you are at home and talking to a close girlfriend. She is truly an expert in her field and has such a visible passion for what she does—which is hard to find these days. You can't learn passion, you either have it or you don't. Thus, with her knowledge, skills, and experience I could not ask for a better provider. She truly cares about you and you can just feel it."

Restoration MedSpa in Winston-Salem is located at 250 Executive Park Blvd, Suite 105 and in Greensboro at 1002 N. Church Street, Suite 101. For more information visit RestorationMedSpa.com or call 336.999.8295.
